

## Streichholz-Knocheleien

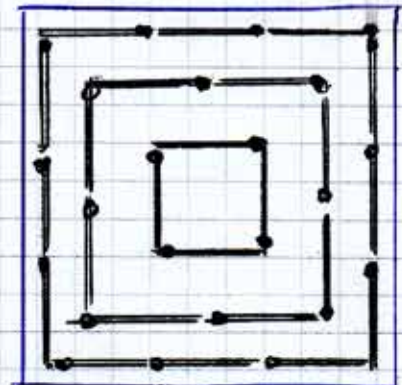

Mögliche Lösungen, wie man auf einem Feld, das 3 x 3 Streichholz-Längen groß ist, 24 Streichhölzer so unterbringen kann, dass eine bestimmte Anzahl von Quadraten (also keine Rechtecke) entsteht, hier 1 bis 11 und 20 Quadrate. Es bleibt jedem, der gerne knobelt, überlassen, diese Liste um weitere Beispiele zu erweitern.
